

New Engine Hood Design

Completely New Drivers Area

Blue Bird Quality Construction

Choice of Cat or Cummins Engine

# VISION '08

**It's rugged.** The '08 Vision further strengthens Blue Bird's already legendary construction quality. The new engine hood is more than just attractive; it's all new torsion mount is Blue Bird rugged, yet makes operation feather-light—and service unencumbered.

Under that new hood is your choice of Caterpillar® C7 or Cummins® ISB engine; both designed to meet stringent 2007 emissions standards with intelligent, automatically-activated aftertreatment systems. Your choice of engine is neatly nestled into a fully Blue Bird engineered chassis among all the other Blue Bird advantages, such as color-coded and float-mounted harnesses and tubing.

**It's smart.** The first Blue Bird Vision pioneered a Multiplex electrical system that is designed specifically for school buses. The '08 Vision is even smarter. The all new instrumentation includes an information-rich DID panel, providing a wealth of system information to both the Driver and the Service Technician.

**It's all Blue Bird...** The bus that redefined C-Class versatility continues to lead with legendary strength, intelligent innovation, and steady, practical, purpose-built refinement.

...and your  
Drivers  
are going to  
love it!
